Dresden Bank Is Involved, Says Examiner After Cashier's Flight

Hornung's Whereabouts Unknown To Authorities

Missing Cashier's Wife Fears He Has Committed Suicide--Bank Is Closed By Examiner Pending Investigation--Hornung Comparatively Wealthy.

Following closely on the heels of the mysterious disappearance of Cashier John Hornung of the Dresden National bank Monday night, came the statement Tuesday night by H. C. Blackman, national bank examiner, that the "bank is involved." He made this statement following repeated demands on the part of anxious depositors and stockholders.

Hornung was last seen in Zanesville Monday evening shortly after six o'clock and Sheriff Evans, of Muskingum county, has notified officials in all parts of the state to be on the look out for him. The notification does not ask officials to place the cashier under arrest, however, in case he is located.

According to the best advices it is not known when the bank will be reopen for business the reserve demand by the Federal authorities having been overdrawn.

All day Tuesday anxious depositors wondered where Hornung had gone and whether or not his disappearance signified a shortage in the bank funds. The bank is now in charge of Examiner Blackman and the following notice is on the door:

"This bank is closed until its affairs can be investigated."
H. C. Blackman
"National Bank Examiner."

Wife Distracted

Mrs. Hornung, wife of the missing man, said Tuesday that when Mr. Hornung left home he told her he was going to the Dresden depot to meet a man coming on the C. A. & C. train from Trinway. A Dresden resident said Tuesday morning, however, that Mrs. Hornung told him that her husband had gone to Zanesville on business.

To all inquiries Mrs. Hornung replied that she had no idea where her husband was, had no knowledge of his business affairs and could throw no light whatsoever on his strange disappearance. She expressed the fear that he might have made way with himself as this fear seemed to be entertained by several friends of the missing man. Mrs. Hornung is almost overcome.

Why Did He Go?

What caused Hornung to disappear? This question is a puzzle to the authorities and residents of Dresden. His disappearance shortly followed the making of an appointment with him by Bank Examiner H. C. Blackman, who arrived in Dresden Monday afternoon at 3:30 o'clock. He interviewed Mr. Hornung and what passed between them would not be divulged by the examiner Tuesday. However, an appointment was made for that evening. As Mr. Hornung was leaving the bank he met W. C. Copland, president of the bank. According to Mr. Copland's statement nothing concerning the bank passed between the two men at this time.

Books In Muddle

The examiner said Tuesday that the books of the bank were in a greatly muddled condition, and it would take several days to learn how they stood. President Copland reiterated this statement and said further that the directors would have no statement to make public at this time. The general impression seemed to be that there would be little if any shortage and that the bank's difficulties were caused by bad paper, inability to meet demands for money from other banks and a shrinkage in deposits. For this shrinkage the purchase of automobiles by many residents of Dresden and vicinity is given as a cause. The shrinkage from May 1 to June 29, the bank statement says, was about $13,000.

Took No Money

It is understood that the bank has made strenuous efforts to meet drafts of other banks and in clearing with the Dresden Banking company only last Friday paid into that institution $2,800. It is not affected. So far as could be learned Mr. Hornung took with him no securities of any kind.

Friends of Mr. Hornung, and they seem to be legion, are of the opinion that his departure from Dresden was either to get funds to meet demands or caused by his feeling of depression as a result of the condition of affairs, expressing the belief that he may have been slightly demented by worry. Had he been short in his accounts there seems no reason why he would not have been able to square himself as he is a man of considerable wealth, all unencumbered so far as records in the recorder's office here show.

Hornung's Wealth

Mr. Hornung's wealth is estimated at any place from $25,000 to $40,000. Of this a great deal is in real estate. This includes the handsome home where he and his wife reside, which is in her name and valued at $7,470 and consists of the residence and 37 acres. In Mr. Hornung's name is the frame property where the bank is located; a double brick store building in which is located the Rexall Drug store, formerly owned by Mr. Hornung; a double brick store room in which is located the Dresden Transcript office, Mr. Hornung being a half owner of this paper, and a residence property which is occupied by Editor Cochran of the Dresden Transcript.

A peculiar feature in the ownership of this residence is the fact that it formerly belonged to Mr. Prettyman of the First National bank of Dresden which went under several years ago and which Mr. Hornung bought when it was turned in to square depositors of this bank following the bank's failure.

Mr. Hornung's real estate holdings are valued at $12,450 and on personal property he and his wife pay taxes to the amount of $850. Had Mr. Hornung been short in his accounts with the

Waiter And Dishwasher Disappear From Hotel

William Eggleston, waiter, and his wife Marjorie, dishwasher, both colored and employed at the Park hotel, left for parts unknown at an early hour Tuesday morning. The pair had been under surveillance by the police in connection with the mysterious disappearance of silverware, table linen and other articles from the hostelry, but as the evidence against the pair was not sufficient to warrant an arrest, they were still at large, although warned that an attempt to leave town would result in their arrest.

On the 4th and 5th of July, Eggleston and his wife shipped packages of goods to relatives in West Virginia. Shortly after, M. C. Dunkin, the proprietor of the hotel, discovered that the articles were missing and soon got a line on where the goods were going. He was, however, unable to give the police positive evidence that they were the guilty parties. They stoutly maintained that the packages they had shipped contained firecrackers and other articles. This served to arouse more suspicion as fireworks could not be purchased in the city.

The pair was being watched as the evidence against them was being collected bit by bit, when they decided that it would be unwise to linger in Coshocton. They had prepared to leave Sunday but were admonished that arrest would follow such a move. The missing articles are valued at approximately $25.

Cleveland Grants the Franchise

The backers of the O. C. Barber project to construct a subway under East Fifty-fifth street from the lake to the southerly limits of the city of Cleveland which is the point of beginning for the establishing of an electric line from Cleveland along the old Ohio canal passing through Coshocton and terminating at Dresden, won another victory at Cleveland Monday night.

The Cleveland council with a strictly partisan division, by a vote of 20 to 5 passed the ordinance granting to the Cleveland, Akron & Terminal Railway Co. backed by Ohio C. Barber, the right to construct a subway under E. 55th st from the lake to the southerly limits of the city. The vote followed a heated protest. Later, a majority members attached a resolution to have council submit both the Cleveland & Youngstown and Barber subway projects to a referendum. By a vote of 17 to 12 council refused the resolution to submit.

Juvenile War At Walhonding

Complaint was made Tuesday to Mayor Stirts by Wilson Johnston, of Walhonding, that his son, a lad of ten years, had been struck by a stone thrown by one of Irish Stirts, also of Walhonding. The boys were playing ball when the incident occurred. The lad was taken to the office of the mayor where the matter was settled to the satisfaction of both parties. The lad's father is a veteran of this war and the case was reported to Probation Officer Brickell and the juvenile court.

USE A WHEELBARROW.

Complaint was made to the mayor Tuesday that thieves had stolen ten Buff Rock chickens from James Lear of the Cambridge road.

Carranza Will Push Campaign

Washington, July 13.—Gen. Carranza is preparing to push his campaign against Gen. Villa to a speedy winup, if possible, according to messages received here from Vera Cruz today.

The capture of Mexico City was said to have encouraged the first chief and his followers immensely, and indications pointed to a campaign of the most energetic sort, to prove the Carranzista provisional government's title to recognition by the United States.

It was the general impression here that this program stands an excellent chance of success. Utterances by Secretary of State Lansing on Monday afternoon, to the effect that President Wilson might not find Carranza recognition incompatible with his views, was looked on as practically settling the question, provided the constitutionalist order follows up its capture of Mexico City by energetic action in the north.

Thaw Soon To Know His Fate

New York, July 13.—Harry Thaw will know within 36 hours whether the jury that has heard the evidence in his sanity trial believes him sane or insane, it was predicted tonight when the prosecution completed its argument of Thaw's trial for the jury.

District Attorney Garvan, alienist for the state, was in the witness chair when the trial was resumed today. John B. Stanchfield attacked Flint's testimony.

"You came out paid upward of $5,000 for your work in the Thaw case, didn't you?" persisted Stanchfield.

"I have not," snapped Flint.

Calf Without Tail Is Born At Clowville

The story of a tailless calf comes from Clowville. The animal was born last Monday and, it is said, with the exception of having no tail it is perfectly normal and is thriving satisfactorily. It is a Jersey heifer and belongs to John Kiss, a Hungarian laborer, employed at the Clow plant.

Runaway Smashes Two Poles

Two telephone poles were smashed when a team belonging to Cliff Wright and attached to a big farm wagon, became frightened and dashed down the street at Cooperdale Tuesday afternoon.

Mr. Wright had left his team standing in front of the H. S. Jones store and was in the store at the time making purchases. In his absence a dog ran out at a passing horse, barking loudly as it passed the Wright team. The horses took fright and ran away. They were caught by Lemert Graham.

Predicts War With Germany

A glass bottle containing the following prediction as to the outcome of the present world war was found recently below a cement bridge in a drift, midway between Linton Mills and Plainfield. The finder was Robert Lawrence, jr., of Newcomerstown R. D. 3, and according to instructions he mailed it to the Cambridge Jeffersonian:

This phial was cast into Wills Creek from the Ninth street bridge, in Cambridge, O., on the 1st day of July, 1915.

Present conditions indicate that the war in Europe will last for at least another year. While Germany seems to be meeting with some decisive successes at this time, she will ultimately be overcome by the combined armies of the nations with which she is now at war, and the nations that will later enter the conflict. This will not come to pass until Austro-Hungary, by reason of exhaustion of men and means, will break loose from her compact with Germany and sue for peace.

In the meantime war will be declared between Germany and the United States, with, perhaps, no very serious results for either nation, the hostilities, if any, occurring on the high seas.

The finder of this note will please deliver it to the editor of the Daily Jeffersonian, and through him the name of the writer may become known.

Cambridge, O., July 1, 1915.

While there were no exceptionally large subscriptions to the Salvation Army campaign for raising $1,500 for citadel repairs, Tuesday, the fund increased almost $100 by donations varying from $25 to 25 cents.

It is the intention of Capt. James Asher, who is conducting the campaign, to rush it along as rapidly as possible and it is hoped that the full amount can be secured by the end of next week. To facilitate matters a replica of the subscription card, which is being used in the campaign, will be reproduced in The Tribune each morning and these may be signed up and sent by mail to Capt. Fred Ladlow, of the local corps, by all those who desire to contribute to the fund and have not been reached by personal solicitation. Do not hesitate because you may think your contribution too small. The dimes, quarters, half dollars and dollars are just as essential in this campaign as the larger amounts. If you are not able to give just at present, the amount you wish to contribute, sign the subscription blank with the amount of your subscription and you will be given until September 1, in which to pay.

Real Estate Changes Hands

A six room dwelling house on North Sixteenth street, was sold by Mr. Peterson to Stephen Jones, of near Fresno. Mr. Jones and family will occupy the house as a home immediately.

Charles Carpenter, of Pine street, has purchased one of the lots in teh new Hay addition, on South Lawn avenue. The lot adjoins the John Hay house, occupied by Mr. and Mrs. Aland. Excavation was started Tuesday and a modern brick residence will be built at once.

The deals were put through by the Snyder and Scott agency.

GRANGE FESTIVAL

The Walhonding Valley Grange will hold a festival Saturday evening, July 24. Elaborate preparations are being made for the event and it is expected that a large crowd will be present.

Little Boy Saved From Drowning

Edwin Mirise, the seven year old son of Mr. and Mrs. Harry Mirise, of South Ninth street, was rescued from drowing Tuesday afternoon by the timely assistance of Glenn West, of Denman avenue.

The Mirise youngster together with a number of other small boys, was bathing in the canal near Randles bridge, when he got out beyond his depth and was going down for the third time when rescued by West, who was swimming at some distance from the younger lads with a group of older boys.

ATTENDS FUNERAL

Coroner Probes Deaths

The coroner's inquest into the death of Johno Sobo and Martin Tomar was held in Coroner F. M. Marshall's office Monday night. He will file his finding today.

Though not officially announced, it was rumored last night that the finding will be death from an accident due in part to contributory negligence. Three witnesses were examined and testimony was brought forward to the effect that the laborers had not been warned that the train, Pennsy passenger No. 31, which struck and killed the foreigners, was late. The rules of the company require that their track laborers and especially their track foremen, be notified of the "running schedule of all special and all late trains." This, it is said, was not done and the men were unaware at that time that the train was soon to pass.

Former Local Woman Called

Coshocton county friends have received word of the death of Mrs. Rose Howard, which occurred about a week ago at her home in Dana, Iowa. Mrs. Howard was the widow of Dr. Lucian Howard and they were formerly residents of Keene. She was 94 years old at the time of her death. The family will be well remembered by many of the older residents of the county. They left Coshocton and settled on a farm in Iowa in 1871. Two children are left, Mrs. Lee Kinsey, of Dana, Iowa, and Richard Howard, of Jefferson, Iowa.

IS IMPROVING.

The condition of Mrs. David Wike, of West Lafayette, was reported to be quite satisfactory Monday evening. Mrs. Wike tripped on the edge of a piece of carpet last Saturday night and fell breaking one of the bones in her left ankle. Dr. Shaw was called and reduced the fracture. It is said that the injury will keep her confined to her home for several weeks.

John Keep, of Warsaw, left Monday on a few days' business trip to Pittsburgh, Pa.

Thirty Subs To Be Built

Washington, July 10.—The next building program for the United States navy will include estimates for nearly twice the number of submarines appropriated for by the last session of congress. Although the general board will wait until September to make its recommendations, it is said that at least thirty, and probably more, submarines certainly will be asked.

Some naval officers of high rank, who are being consulted, believe as many as forty or seventy-five submarines would not be too many. The last congress in three sessions authorized twenty-six submarines, and the United States has a total now of nearly seventy, in commission or building.

Secretary Daniels, it is understood, favors a large building program.

SERIES ENDS.

The last episode of the "Who Pays?" series was shown at the Pastime last night and like the rest of the installments pleased the audience. Manager Chaney wishes to thank Pastime patrons for the way they patronized these features and says he will make an announcement in a few days which will bring to his theatre another series of pictures produced by the same company that made the "Who Pays?" productions.

TOUVAL IN BAD.

Sherman Touval was arrested Monday and lodged in the county jail on a charge of train-riding filed in Justice M. W. Wimmer's court by Detective Doney. It is said that the charge is a technical one and a more serious one may be filed later.

Buried Gold After Murder

Bedford, Ia., July 10.—Further developments in the case that has come to be known as "the mystery of the murdered cattle man and his son, or the $90,000 buried treasure," came today with the arrest of Henry and John Dainwood, brothers.

The story of the murder in 1865 came to light yesterday with the arrest of Bates Huntsman, 70, member of a family prominent in this section, and Henry Scribner, a well-to-do cattleman. Scribner was charged with being an accomplice of Huntsman who, in addition to being charged with the murder, faces the allegation that he was connected with a notorious counterfeiting gang that operated in Iowa in years immediately following the civil war.

The Dainwood brothers, both nearly 60 years old, were placed in jail in Clarinda, Ia., this morning.

TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit By Coshocton People's Experiences.

Occasional attacks of backache, irregular action, headaches and dizzy spells are forerunners of symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Coshocton proves the effectiveness of this great kidney remedy.

W. S. Huff, 425 South Seventh St., Coshocton, says: "My kidneys were in bad shape and I had sharp pains in the small of my back. I was bothered the most when I tried to lift anything heavy about the store. After taking Doan's Kidney Pills, at Metzler & Robertson's Drug Store, a short time, I was fixed up in good shape."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Huff had. Foster-Milburn Co., Props., Buffalo, N. Y.

Lung Trouble Yielded to This Medicine

If you are still a victim of serious lung trouble, it will be your fault if you do not take Dr. Boerhaave's Alexander, a remedy which has cured many in every way like unto yours.

3332 Girard Ave., Phila., Pa.

Gentlemen—In the winter of 1912 I had an attack of Grippe, followed by Pneumonia, and later by Lung Trouble. In the winter of 1914 I had a cough, night sweats, fever and raised quantities of awful-looking stuff, and later I had many hemorrhages, at one time three in three successive days. Three physicians treated me. I was ordered to the mountains, but did not go. Dr. Boerhaave's Alexander was recommended by a friend. After taking a small quantity I had the best quiet night's sleep for weeks. My improvement was marked from the first. I gained strength and weight and appetite. I never had another hemorrhage and my cough gradually lessened until entirely gone. I am perfectly well."

Says Indigestion Results From an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach, decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acrid foods and gases which inflate the stomach like a toy balloon. This work's a heavy, lumpy ferment in the chest, we belch up gas, we eructate sour food or have heartburn, dizziness, headache or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescing and quite foamy. Repeat this for a week. While relief follows the first dose, it is important to normalize the acidity, prevent the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jads Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

CONSIDER THIRD NOTE.

It Will Be In Tentative Form When President Reaches Washington.

Washington, July 13.—Both President Wilson, at Cornish and Secretary Lansing, at the state department here, devoted themselves to the German reply to the American note on submarine warfare, the indications being that the third American note will be in tentative form by the time the president returns to Washington.

Under no circumstances, it is believed, will the United States enter into an arrangement to "mark" ships carrying Americans, for such an arrangement would signify that unless an American is on a "marked" ship he is without the protection guaranteed by international law and the supposed freedom of the sea lanes.

It is believed the answer framed by President Wilson and Secretary Lansing will criticise unsparingly the failure of Germany to treat the Lusitania tragedy seriously. In her last reply Germany seeks to dismiss the Lusitania's destruction with the suggestion that Great Britain is really to blame because of the British blockade, and nothing is said about the reparation twice demanded by this government.

The third note of the United States is expected to point out in unmistakable terms that not only should Germany disavow the intent to take American lives, but she should offer such reparation as may be possible. Germany's avoidance of this point, emphasized in previous American notes, is the other thing which nettles administration officials.

CREW SAFE AT PORT HURON.

Steel Steamer Sinks In Lake Erie After Collision In Fog.

Cleveland, July 13. The big steel steamer Choctaw of the Cleveland Cliffs Iron company's fleet lies at the bottom of Lake Huron near Pressque Isle, and her crew of 24 men are safe in Port Huron after a narrow escape. This word was received at the company's office here.

In a dense fog that covered Lake Huron the Choctaw and the Wacondah, a merchandise steel ship belonging to the Canadian Steamship company, collided. Within five minutes the Choctaw had gone to the bottom, and the Wacondah picked up the Choctaw's crew.

10,000 Drown In China Floods.

Peking, July 13.—More than 10,000 Chinese are reported to have been drowned in Shensi floods which are covering the provinces of Honan and Kiangsu. At least 50,000 more are homeless and are on the verge of starvation. The floods are the most disastrous that have ever occurred in northeastern China, thousands of thousands of square miles of territory are under water.

Edison to Aid the Navy.

Orange, N. J., July 13.—Thomas A. Edison has accepted an invitation from Secretary Daniels to head an advisory board of civilian inventors for a system of invention and development to be created in the navy department.

Fourth Aerial Raid On Venice.

Rome, July 13.—Austrian aviators dropped bombs near the famous palace of the Doges in the fourth raid on Venice since the beginning of the Austro-Italian war. Other bombs were dropped near the Arsenal and near the railroad station. Three women and children were killed and which bombs are not known.

ENGLAND'S CABINET TROUBLES.

Asquith's Stand Angers Opposition to Coalition Government.

London, July 13.—There was a determined effort in the house of commons today to make the government answer the charges of its mismanagement of the war and the efforts to meet which Great Britain is straining. But Premier Asquith refused to reply to any of the questioners in the house, claiming that [illegible] and that it would take him at this time far from the daily round of a fleet and [illegible] with [illegible] have on the care of the country.

It would [illegible] of the rather [illegible] that Mr. [illegible] George [illegible] the [illegible] of Lord [illegible] [illegible] Sir Edward Grey and [illegible] following [illegible] that the [illegible] General Sir Ian Hamilton, [illegible] of the [illegible] the members of the government either are unable to be on hand or are declining to enter into a discussion of them.

It is by no means felt that Premier Asquith's attitude of silence aided the government's position. It did not even please those who are inclined to let the government go its way and make most of the situation. Certainly it only added fuel to the anger of the malcontents, who are determined apparently to embarrass the coalition government as much as possible.

CARRANZA WILL PUSH CAMPAIGN

Stands Chance of Being Recognized by Administration.

Washington, July 13.—General Carranza is preparing to push his campaign against General Villa to a speedy windup, if possible, according to messages, unofficial, but from trustworthy sources, received here from Vera Cruz.

The capture of Mexico City was said to have encouraged not only the first chief, but his followers immensely, and indications were declared to point to a campaign of the most energetic [illegible] to prove the Carranzista provisional government's title to recognition by the Washington administration.

It was the general impression here that the program stands an excellent chance of success. Utterances by Secretary of State Lansing to the effect that President Wilson might not find Carranza recognition incompatible with his views, was looked on as practically settling the question—provided the Constitutionalist leader follows up his capture of Mexico City by energetic action in the north.

Stories that General Villa is showing increasing activity in the vicinity of Arinas Calientes were not taken very seriously. It was regarded as natural that he would do everything in his power to counteract the effect of his loss of the capital.

Carranzista accounts of a crushing defeat inflicted on him in the Arinas Calientes section are generally accepted as true. The present despatches—serious disorders just to the southward of the border as the Villistas are passed in that direction. That there might be an overflow of this trouble to United States territory is thought quite probable. General Funston's forces were reported on the alert to deal with it.

Two Trawlers Sunk.

London, July 13.—The trawlers Martin and Emerald, both of Lowestoft, were sunk by a German submarine in the North sea. Their crews were landed at Lowestoft.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Mix Sage Tea and Sulphur and brush it through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at attention can be recorded as, probably, a close with "Wyeth's Sage and Sulphur and look years younger.

RUSSIA FORTIFIES RUMANIAN FRONT

Interest In Balkan States Paramount In London.

Berlin, July 13.—A dispatch to the Tageblatt from its correspondent at Czernowitz, Bukowina, says:

"The Russians are fortifying their Rumanian borders. Many thousands of men are at work digging trenches parallel with the border and building barbed wire entanglements. The operations are being rushed with all speed.

"The Russian government of Bessarabia borders Rumania on the east. Austria-Hungary is reported to have offered Rumania to undertake the conquest of Bessarabia and transfer it to the Balkan state in exchange for Rumania's active support in the war.

"Russia, on the other hand, has attempted to win the support of Rumania for the allies by promising the cession of the Hungarian territory of Transylvania, which borders Rumania."

WILL SOON ENTER WAR.

London Realizes Effect of Galician Drive On Balkan States.

London, July 13.—Dispatches from the continent, though mutilated by the censors through whose hands they have passed, indicate that Bulgaria's entrance into the war will not be long delayed and aggressive action by Austria to force the hand of Rumania is likely to bring about an immediate decision by that country.

British diplomatists now see in the Germanic drive through Galicia, a campaign which, while wholly successful, gave the Austrians and Germans a hard front to defend, a scheme to influence Rumania. While that country was expected to join the allies immediately following the action of Italy the strength of the offensive developed by the Teutons in Galicia has had a deterrent effect.

It is apparent that a diplomatic campaign is being waged at Sofia and Bucharest. A special representative of the British government has been dividing his time between the two capitals, and it is even rumored that while Sir Edward Grey, the British foreign secretary, was taking a vacation to "rest his eyes" he visited Bulgaria, Rumania and Greece and conferred with influential officials there.

The situation at Athens is of little interest from a diplomatic standpoint. Greece will preserve her neutrality until Rumania or Bulgaria enter the war. No matter what side they support, Greece will never fight with Germany, according to the political experts.

Fighting Near Haitien Capital.

Washington, July 13.—Rear Admiral Caperton, commanding the cruiser Washington at Cape Haitien, reported that desultory fighting was going on between rebel and government troops outside the city. He still has a score of marines ashore to protect foreign property in the town, which he reports to be quiet at present.

Hundreds of houses have been destroyed by the tremors, which have been violent for the last twenty-four hours. All the surviving inhabitants have taken refuge in the fields.

NO MARKET FOR COTTON.

Outlook For Handling the New Crop Exceedingly Doubtful.

New York, July 13.—Although the banks here have not yet taken steps to act in concert in extending aid to the south in carrying its cotton crop this year, it is generally admitted in banking and cotton trading circels that the outlook for the marketing of the crop this year is a doubtful one.

Last year the marketing of the cotton crop was hindered by the fact that shipping was greatly curtailed and also by the fact that the New York and Liverpool cotton exchanges were closed. In 1914, however, there was a big foreign market for the cotton, when the mediums of transportation and sale were provided. This year, it is feared, the European demand will be far less than that of last year, while the crop probably will be large. Coupled with this is the fact that there are about 3,000,000 bales left over from last year.

According to some of the cotton experts, the accessible European market is glutted with cotton. The stocks on hand exceed those of all previous years. France, Great Britain, Italy and Spain have enormous quantities of cotton stored in their warehouses, and owing to the fact that three of these countries are involved in the war, their capacity for consumption has been greatly reduced. Austria and Germany, two countries which are in the habit of making large purchases of American cotton, will be able to get only the little cotton they can smuggle through neutral countries.

Explosion at Powder Plant.

Louisville, Ky., July 13.—The explosion of 1,000 pounds of powder in the dry mixing plant of the United Safety Powder company at Centralia, twelve miles from Louisville, cost the life of Robert S. Waddell, an expert on explosives, and two assistants, Benjamin Dodt and Thomas W. Proctor, besides seriously injuring three negro laborers and wrecking the plant. Clogged machinery was believed responsible.

Power of the Courts.

Columbus, July 13.—Inherent power of the courts can not be abridged by the legislature. That the supreme court has so held was brought to light by Attorney General Turner in an opinion to Prosecuting Attorney Henderson of Mahoning county. It was Judge R. N. Wanamaker of the supreme court who, when judge of the Summit county common pleas court, first asserted the proposition.

John Marx, of West Lafayette, was a business visitor in the city Monday.

LAWSON ROASTS JUDGE.

Labor Leader, Convicted of Murder, Draws Life Sentence.

Trinidad, Colo., July 13.—John R. Lawson, labor leader, convicted of murder in connection with strike disorders, was denied a new trial by Judge Granby Hillyer in the district court here. Lawson was sentenced to spend the remainder of his life at hard labor in the penitentiary. Lawson read a long statement, in which he maintained his innocence, charged that he had been made the victim of "a corporation-controlled prosecution" and alleged that his trial had been a "travesty on justice."

In addressing the court Lawson said: "It is contended in this case that you were appointed to the bench this spring for the trial of myself and my associates. Fresh from the employment of the coal operators of Colorado, into office the Rockefellers, who have conducted these prosecutions; yourself a coal company attorney, you were so prejudiced against me that my case in court was a travesty on justice. Today the supreme court of Colorado in Denver is reviewing your conduct."

BELMONT MINERS STRIKE.

Say Time Limit For Installation of Run of Mine Scales Has Expired.

Bridgeport, O., July 13.—Two thousand miners are on a strike in Belmont county, after working only two months following a strike that lasted over a year.

The miners make a general demand on the operators for the installation of scales for the weighing of coal on the run of mine basis. Only a portion of the mines are so equipped, and where there are no scales the miners refused to report for work. The miners claim that the time limit for installation of the scales has expired.

BAD OPERATION AVOIDED

By Timely Use of Lydia E. Pinkham's Vegetable Compound.

Mrs. Sowers' Own Statement.

Hodgdon, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached. I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

TEMPERANCE NOTES

(Conducted by the National Woman's Christian Temperance Union)

WATCH IT GROW.

In Phoenix, Ariz., before the November election, all the liquor places put up a sign to this effect: "This building will be for rent if the 'dry' amendment carries." After election the saloon men refused to give up their leases, some of them opening drug stores, some soft drink stands, some restaurants. The law went into effect January 1. The day afterwards every baker and grocer in the city for the first time sold out his stock of bread, and the meat markets sold out their meats. Last year the arrests for drunkenness in Phoenix averaged 12 per day; on the day after the saloons closed, for the first time in its history the police court had no drunks.

Phoenix bankers also have a tale to tell. The day Arizona went "dry" the Valley bank, which suspended early in November, reorganized and opened up for business stronger than ever. The Citizens' bank, established by local capitalists, opened after the saloons were voted out. The Central bank, organized by eastern men after the election, filed articles of incorporation three days after the law went into effect and now occupies one of the "empty buildings." A branch of the Anchor Trust company of Wichita, Kan., was established after the state voted "dry." "Watch Arizona grow," say Arizonians.

"TOMMY ATKINS" PLEDGE.

The following "tetotal" pledge is being circulated among the British troops on the European battle fields:

"Don't ask me
To take drink;
I've decided to be teetotal while
On service for my country.
"(Carry this with you and show it whenever asked to take liquor.)"

On the reverse side of the card is printed:

"Temperance Battle Card for the Great War.

"Recognizing that as army, navy and medical leaders have stated,

"Alcohol or drink is detrimental to health and efficiency,

"I promise, God helping me, to be teetotal while on service for my country.—(Signed with witness).

"(Get a mate or the chaplain, or an officer to witness this.)"

DEMAND IS FOR SOBER WORKERS.

In a recent number of the Technical World is a contributed article entitled, "The Worker Who Drinks Must Go." The editor in an introductory note thus comments:

"Emperors, business men, social reformers are all agreed upon one thing—alcoholic drinks work positive harm. A single glass of beer lowers a man's efficiency 7 per cent. Imagine what strong wine, gin, or whisky will do. The up-to-date employer will not keep men who drink even 'in moderation;' the secretary of the navy will not allow them on our warships; every commander in the field today is leading a sober army. Everywhere the brains of the world recognize that alcoholic liquors weaken both muscle and mind power."

PROSPERITY IN ATLANTA.

Atlanta, Georgia, is the largest dry city in the country, and the capital of a state in which the sale of liquor has been prohibited since 1907. In that year the realty transactions of the city were $91,846,359; in 1913 the amount was almost double—$172,292,004. Building permits for 1907 aggregated $1,554,771; in 1912 they reached the sum of $9,967,444. Corresponding increase in all lines of business is recorded. The tax rate shows significant reduction.

NEAR THE TOP OF THE WORLD.

The "farthest north" local Woman's Christian Temperance union is in Dawson, Yukon territory, only about one hundred miles from the Arctic circle. It was organized in 1913 by one of the national organizers of the society and is doing active work for temperance—"living, working, gaining new members," writes the president, "and corresponding with the Ottawa officials in regard to the observance of Sunday closing of saloons." Plucky!

CHURCHES AND BREWERIES.

Did you know that over ten times as much money is spent in building churches as in building breweries? This, at least, is the record for the first four months of last year. According to no less an authority than the American Contractor, a building trade journal, in that period the brewers spent $529,000 in building operations and the church people spent $5,386,556.

PERTINENT QUERY.

What is the difference, asks an exchange, in moral quality between keeping a saloon and running advertisements of whisky and beer?

STUDY OF ALCOHOL.

In fourteen European universities instruction as to the nature and effects of alcohol is a recognized part of the curriculum.

A Message to Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 lbs of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Wimmer-Arnold and other good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for its is a wonderful flesh-builder.

Young Women's Organization Holds Meeting

Bills were allowed and arrangements discussed for future gatherings of the Y. W. organization, at the regular monthly business meeting of the executive committee of the club, last evening.

The next meeting will be a social one at the home of Mrs. John Gleason, on Main street, Tuesday evening, July 20. An especially attractive program has been arranged for this occasion. Miss Garnet Cox has consented to give a series of readings and Miss Emma Manner will repeat by request the poem from Olive Schreiner, read at the last vesper service. A Victrola concert will also be included in the evening's entertainment.

Another social affair which will be anticipated with delight by members of the club is to be a picnic at the home of Mrs. W. H. Dickey, on Cambridge street, on August 24. The next vesper service will be held as calandered.

The Y. W. girls will have what is known as the round house at Fairlawn park for their headquarters during the Chautauqua. Miss Blanche Elliott has been put in charge of the arrangements for this feature and will announce her committee members soon. The building will be attractively furnished with cots, chairs, tables and other articles to make it as comfortable as possible and members of the club are urged to make use of these conveniences to the greatest possible extent during the Chautauqua.

Prominent In Church

Further it is stated that Mr. Horning was a man of exemplary habits. FARMERS AND AUTOMOBILES

The fact is well known to automobile manufacturers and agents, if not to the public generally, that the farmer is the chief purchaser of automobiles today. A recent investigation conducted by a farmers' periodical, showed that in seven counties in southwestern Indiana the number of cars bought this year is double the number bought in the same territory last year.

Just seventy-five percent of the machines were going to farmers. It was learned also, that many more mean to become automobile owners before the end of the fall season unless crop and live stock ventures prove disappointing. The cars, this publication adds, are all paid for outright, and the farm mortgage indebtedness "of these seven counties has shown no increase, either, in the last year."

The motor car has proved a good investment for the farmer. It saves time when time is valuable. It has been the means, too, of adding to the value of farm land precisely as it has been the means of increasing the value of suburban areas surrounding cities and towns. It has made remote places seem near, inaccessible places accessible. It has taken the city resident into the country and brought the farmer into the city. It has taught each much more than they could have known otherwise about the habits and prejudices and tastes of the other.

And, throughout the country, it is safe to say that thousands of persons have gone "back to the land" who were deterred formerly because communication between farm and city or town was difficult, and thousands more are contemplating the move. This has brought about unusual activity in the market where farm land is bought and sold, and this activity is reflected in a steady advance in prices paid.

The fact has been mentioned also that the automobile has been more effective than any other agency in keeping the young men—sons of farmers—on the farm. A writer who makes this observation says, incidentally, that it is at this season, when work is heavy, hours long and diversion rare, that dissatisfaction with farm life arises in the minds of the young people.

"The car," he continues, "will do more to combat this feeling than anything else. Be generous with it; let son or daughter use it. The cost will be returned to you a thousand-fold." There is doubtless a good deal in this advice. The best thing the farm raises after all is its young men and young women. Whatever helps to improve this product represents the very best investment possible.

LIVING LANGUAGES

An article in the Philadelphia Ledger calls attention to our neglect of living languages in any scheme of our education, even in the colleges. And what is more, it traces this indifference to our English inheritance—the Anglo-Saxon's indifference to any foreign tongue.

The refusal of the English of Elizabeth's day to pronounce the name of the town of Ypres, where British troops have recently been fighting, gave us our word "diaper." No Englishman would say "drap d'Ypres" (cloth of Ypres in the French style "dra deeper," but in the English style of "dye-per" cloth, then just "dye-per," and then diaper. Many philosophers hold that it is this indifference to foreign tongues that has led to the present war. Just before the war England was losing her control of the world trade because Germany, taking command of languages and knowledge of the peculiarities of peoples, instructed her youth in such things turning them out of her seats of learning equipped with one or two and sometimes more languages.

We have inherited the Anglo-Saxon linguistic indifference, in spite of the many nationalities that have come to us. Our institutions of learning turn out many students unable to speak any language but their own. So all our efforts to capture South American trade are seriously hampered by our refusal to know either Spanish, French or German, or all three. All over South and Central America are German agents, engineers, specialists of any kind, who speak Spanish, Portuguese, French and English. The German, too, is instructed in the peculiarities or characteristics of the people. What chance has an Englishman or American with their indifference and contempt for all languages but their own.

With [illegible] with the West Indies, Central and South America and Mexico, a knowledge of Spanish and Portuguese is indicated as a necessity. But our colleges and universities, the article goes on to say, should try to see to "reorganize" their modern language department, and send men forth equipped with a practical use of these languages.

Washington thinks now that there will be peace in Mexico in a couple of weeks more. But then as we have waited for five years for peace down there a few days longer won't make any difference.

If you haven't a fly swatter, get one. Now is the time to swat. A few well directed swats in every home in town just now will help wonderfully in keeping down the season's fly output.

The old fisherman may be right about it when he says the fish are not as big as they used to be, but one fact about fishing is the same now as then—the biggest fish always get away.

A person's age has considerable influence on his ideas of sport. For instance, it is hard to get a small boy to realize that grown up ball players actually get money for playing.

We can recall the time when there were no child labor laws to protect the boys from sawing cord wood and whitewashing fences, but we had a little fun, at that.

The Wise Guy says: for many women marriage means leaving a good salary to work for their board and clothes the rest of their lives.

RAINMAKERS

[illegible] who keep of [illegible] are resting on their arms; and [illegible] shines, merry and cheery, and starts to dry out the [illegible]. We take our rusty cultivators, hope springing in each heart, and try to plow out sweet potatoes, in rows four feet apart. And then the skies start a shooting, star on Europe's shore, and down the rain comes, cannonballs, for days, and then some more. Upon the roof the raindrops rattle, they spoil our hay and beans, and when we go to feed the cattle, we go in submarines. Oh, cut it out, ye kings and kaisers, and monarchs high and low! Our spuds and other early risers don't have a decent show!

PEOPLES' FORUM

KONCK WHERE KNOCK BELONGS

Editor The Tribune:

From newspapers who grasp the almighty dollars and who are supposed to boost the Coshocton merchants' game, the "Goldman peddler defense" article in Tuesday's issue comes with poor grace.

That a newspaper should allow space for a character of this kind to merely seek revenge on a mayor who did his duty my imposing a fine for an admitted violation of the law, whether from the favors expected from opposing political forces, or not, does not justify the publicity in the merchant's mind.

The business men and city officials should stand together in protecting home business. The public are imposed upon by the misrepresenting peddlers, and in their disillusion pay more for an inferior article than the home merchant would consider charging, thus working a hardship in all respects.

We trust the mayor will stand by his convictions, and repeat his actions whenever the case arises which have been numerous in the past.

The press should realize that merchants expect co-operation as part return for money invested.

Let's play fair.

"A Business Man."

CAUGHT THE BUSINESS MEN

Italian Organ Grinder Would Seem to Have Knack of Knowing Just How to Please Hearers.

Some of the greatest men of past ages have to thank their knack of doing the right thing at the right time for their prominence in the annals of posterity.

Gutenberg disclosed his newly invented movable type to a handful of men who were in great need of a medium to disseminate royal edicts on a grand scale. Thus the art of printing received a better start than it might otherwise have enjoyed.

Franklin outlined the possibilities of electricity to an organization of men searching for just such a force. Its triumph was of course assured.

Giuseppe Gorolotta—name fictitious—who plies a barrel organ through Main street has the same knack of doing the right thing at the right time, says the Buffalo News.

When the first reports of the torpedoing of the Lusitania were published, Giuseppe chose as the psychological time to play "The Star Spangled Banner" within hearing of all the office windows on Main street. The unusual appeal depleted half the vacation funds in the business section.

The knack that made other men great will make Giuseppe rich.

Plausible Theory.

Sometimes a bit of unconscious humor survives even the watchful eyes of the Associated Press editors. Recently an account of an unusually bloody fight came into the Atlanta office of the great newsgathering organization. After the ordeal of the blue pencil, it was sent out over the wires to the various newspapers on the "southern division" of the Associated Press.

The item recounted the details of a fight between two persons in a rural community. Their weapons, according to the story, were a scythe, a corn knife, a shovel and a butcher knife.

After enumerating the details of the encounter the dispatch concluded: "It is thought that the two men had some sort of a misunderstanding."

That was quite as convincing as the comment made by the editor of a rural paper in Maine on the arrest of a young man who was caught climbing out of the cellar window of a certain house with a valise filled with silverware, jewelry and other articles of value.

"It is believed," said the newspaper account of his arrest, "that evidence may be found that will lead to his conviction."—Youth's Companion.

Prizes Offered For Melon Seeds

Melon seeds may be worth money to you, so save them. The Ohio Audubon educational board has decided to put on another melon seed contest this summer, which will be more extensive than the one of last summer in all respects. In fact, last year's contest was so successful that the society has decided to give a considerable number of awards, among which are a number of cash prizes. The contest is open to any boy or girl in or below the seventh grade of school.

The contest is now on and continues until October 1. Muskmelon, sugar melon or sundower seeds are the ones which may be entered. The prizes will be awarded by weight and are: First prize, $4; second, $3; third, $2; fourth, $1.50; fifth to tenth, a year's subscription to "Bird Lore" and tenth to twentieth, a year's subscription to "Blue Bird."

The contestant must weigh his or her seeds at the end of the time and after making out a report and having it signed by his or her teacher, the report must be mailed to Dr. Eugene Scopel, 1 West Seventh street, Cincinnati, before October 1. The prizes will be awarded in a short time afterwards.

Curious War Coincidences.

A curious coincidence is narrated in a letter from Private S. N. Jones of the Motor Transport A. S. C., to friends at Llangollen, Wales.

He was a driver on the Llangollen-Wrexham motor-bus route, and enlisted soon after the commencement of hostilities. In France, strange to say, he was drafted to the identical chassis of the motor he had been driving on the Denbighshire route, it having been purchased with many others, by the government.

The manager of the road car company has written to Private Jones stating that, if it should be possible, they will repurchase the car after the war, and place upon it a plate recording the circumstances related.

Aeroplanes For Russia

New York, July 13—The Russian government has ordered two monster aeroplanes for the flying boat type for its navy, to be built at Buffalo by the Curtiss Aeroplane Company. If these machines are satisfactory, it is understood Russia wil lbe in the market for several more.

The new flying boats will be ready for shipment the last part of next month. They are designated to carry a useful load of about 3000 pounds, consisting of bombs, a machine gun and fuel.

Up to the present time Great Britain has ordered thirty-two flying boats, identical with the original Rodman Wanamaker transatlantic machine. Twelve of these have already been shipped.

The success of these machines in the British aeroplane raids induced the Italian navy to order four of them.

Program for Grange Meet

Clark grange will meet Friday evening, July 16 with the following program:

"Name five papers which you have found to be of the most aid to farmers' wives," Mrs. George Elliott.

Reading, Mrs. T. T. Lowe.

"What can we do with the worthless pasture on ground we do not want to plow," Rees K. Lawrence.

"Summer health hints," Dr. Vera Hyning.

Music. By the grange.

Knew Him.

"Yes, I'm anxious to get my daughter off my hands. I'll admit."

"Then why don't you let her marry me?"

"What good would that do?"—Cleveland Leader.

POPE ASKED TO AVERT WAR.

Replies by Urging German-Americans to Be Loyal to Adopted Country.

London, July 13.—Catholic prelates in America have appealed to Pope Benedict to prevent war between Germany and the United States, according to a Rome dispatch.

"The Catholic archbishops of Cincinnati and Milwaukee and the bishop of Toledo," says the dispatch, "made the suggestion of mediation by the Holy See. The Pope replied by recommending that the prelates rely on the wisdom of President Wilson and urging German-Americans to be loyal to their adopted country."

ENGLAND TAKES DRASTIC STEPS.

Invokes Act Forcing Arbitration In South Wales Mine Trouble.

London, July 13.—The government took drastic steps to avert the strike of 12,000 miners ordered to begin in South Wales on Thursday. It decided to invoke the provisions of the munitions act, which make arbitration compulsory and make every striker liable to a fine.

Announcement of the government's decision was made in the house of commons by President Walter Runciman of the board of trade. He asserted that the munitions act made it illegal for any one to participate in a strike unless the board of trade had first been asked and made a report. A strike in the South Wales coal fields at the present time would cripple the allies in their contest with the central powers. The miners' leaders, however, share no responsibility for the strike.

Musician Drowned.

RUSH WOOL TO MARKET.

Parkersburg, W. Va., July 13.—Wool buyers from Eastern markets, anxious to hurry this year's clip to the mills are offering what are said to be the best prices in the history of the West Virginia wool industry. Several thousand pounds were sold yesterday in Barbour county for 35 cents a pound, and the Tompkins Grove Woolgrowers' association, composed of sheep raisers in Wood and Jackson counties, received from 30½c to 34½c a pound for the various grades offered at their annual sale at Bellevile. The situation as regards foreign goods from European grades is said to be the cause of the high prices.

GERMANS MAKE DAILY ATTACKS

Next Drive Against Russia to Be In North Poland.

Petrograd, July 13.—Along the 140 mile front extending from the Vistula river northwest of Plock to the Bobr river near Ossowiec the German troops are making daily attacks that point to a terrific drive toward Warsaw at the first spot which they find weak enough to promise success.

That the next great conflict between the German and Russian armies will be somewhere on this line in northern Poland is further indicated by the latest reports from the front stating that many regiments which took part in the Galician campaign have now appeared to the north.

The recent conference between Emperor William and Field Marshal Von Hindenburg at German headquarters in Posen is believed to have been held to decide upon the plans for this campaign. The German railroads in Silesia and East Prussia have been given up for a week to the transportation of troops and supplies.

With the Russians holding their entrenched lines in southern Poland, the Petrograd war experts declare the Austrians will be unable to assail Ivangorod. It is possible, however that at the same time the Germans strike in the north the Austrians will launch another attack from the south. Grand Duke Nicholas and the Russian general staff are making preparations to meet such a campaign.

FURTHER GAINS BY GERMANS.

French Hand Grenade Attack Is Repulsed and Prisoners Taken.

Berlin, July 13.—Further gain for the Germans at Souchez is officially announced.

"A French hand grenade attack at the sugar refinery at Souchez was repulsed," says the official report. "In connection with the storm attack on the cemetery, our positions were pushed forward across the cemetery over a width of 300 yards, and the Cabaret Rouge, situated on the road to Arras also was captured. The number of prisoners has increased to three officers and 250 men. Several attempts of enemy counter attacks were repulsed in our fire and their execution by artillery was prevented.

"Between the Meuse and the Moselle the enemy developed lively artillery activity. He attacked our positions in the Forest of Le Paris four times in the course of the morning and evening. The attacks broke down under our fire with many losses in front of our lines.

"Other attacks in the eastern and southeastern theaters of the war remain unchanged."

Labor Opposes Arms Shipments.

Columbus, July 13.—Prevention of the shipment of arms and munitions of war to the belligerent countries of Europe is asked in resolutions adopted by the Columbus Federation of Labor. As a precedent for such action the organization cited the embargo on arms which was proclaimed by President George Washington in 1793.

THOUGHT KIPLING A SPY

His Questions Regarding Troops Aroused Suspicions of English Officer.

Rudyard Kipling narrowly escaped arrest on charge of espionage recently on the Territorial training field at Sovenoaks, England, says the Youth's Companion. In a letter a sergeant in the Territorials says:

"Our battalion turned out in full marching order and proceeded to our usual practice grounds. An ordinary looking man came to me and asked me a lot of particulars about the battalion. He told me he had seen a lot of soldiers during this time and said he must confess our men struck him as being about the smartest in marching he had ever seen, outside the regulars.

"He asked me so many particulars about them and also about their billets that I thought I should detain him as a suspected spy. I excused myself and reported to the head of the column and informed one of our majors of what had occurred, and later I took the man to the major.

"The chap chopped me today and laughingly asked me if I knew whom I had had to put under arrest. I said I did not and he told me it was no less a person than Rudyard Kipling."
